The International Hands of Light® Healing Day is an act of world service, being offered by the Barbara Brennan School of Healing community – alumni, students, and faculty. It is a celebration and gifting of Brennan Healing Science as a global wave of healing and love. Around the world, Brennan Healing Science Practitioners will be offering healings, introducing themselves and Brennan Healing Science to the public, and deepening connections within the community.

This year in Geneva, BHS Practitioners and 4th-year students are offering a free healing clinic and a Sufi Heart Meditation – a moving meditation – at 12:00 noon.

To schedule a free 45-minute healing or to participate in the Sufi Heart Meditation contact:
